Radar-Speed Trailers with Large Full-Matrix Display

Wanco® Radar-Speed Signs slow traffic and save lives

- Bold, highly visible, 26-inch LED numbers
- Selectable speed settings
- Streamlined see-through design
- Regulatory speed limit sign with changeable numbers
- Energy-efficient operation for long run times

Wanco® Radar-Speed Trailers feature the largest portable speed sign available today. The giant LED display shows vehicle speed in bold 26-inch characters that are highly visible, warning motorists to slow down by flashing their excessive speed.

Often deployed in school zones, work zones and high-incident areas, these signs provide a degree of traffic calming unmatched by other roadway signs. Formal studies have shown that speeding drivers respond by slowing down to legal limits when their actual speed is displayed on an electronic sign.

Studies also indicate that some drivers "test" radar-based speed displays by driving very fast. To address this danger, Wanco speed signs do not display excessive speed, but instead employ a full-matrix display to flash a message or symbol at drivers, to indicate they are going much too fast.

The selectable excessive-speed message flashes SLOW DOWN or any of several preconfigured graphical symbols, together with optional red-and-blue or white flashing lights. The display can show vehicle speed in miles per hour (one or two digits) or kilometers per hour (up to three digits).

A regulatory sign above the display features changeable speed-limit numbers for easy setup

in any speed zone. The electronic display includes visors and shades for superior visibility. Trailers feature a see-through design that puts pedestrians and workers in view, improving their safety.

YOUR SPEED W

Compact Speed Trailer

Vertical-Mast Speed Trailer

Folding-Frame Speed Trailer

Four Trailer Sizes with multiple R2-1 sign sizes

Compact Trailer for neighborhoods and low speeds Vertical Trailer for viewing over harriers

Folding-Frame Trailer for large roadways

Large Folding-Frame Trailer for high speeds

Regulatory sign sizes from 24×30 up to 48×60

Choose from preprogrammed messages or create your own

Custom sign colors are optional

Options

Touchscreen controller
Red-and-blue or white flashers
Flashing beacons
Traffic Data Classifier System
Modem/GPS package
Asset tracker
High-security battery box
Wheel-lock bar
Additional batteries and solar

Optional Touchscreen Controller*

Wanco's full-color touchscreen controller provides access to all speed sign functions and is widely known as the industry's easiest to use. Features include capacitive response, large virtual buttons and easy message setup.

*Standard speed signs have an analog controller; the touchscreen is an optional upgrade.
When a speed trailer is ordered from the factory with the Wanco Data Classifier System, the
touchscreen controller is included.

Touchscreen Features

Capacitive touchscreen with instantaneous response
Single-press to access most common settings

Change settings and view system status from main screen

Set any speed and excessive speed independently

Display vehicle speeds or messages

Choose from preprogrammed messages or create your own custom messages

Internal clock facilitates built-in schedule programming

Set up connected devices, including the Wanco Traffic Data Classifier System, described below

Multi-level password protection restricts access to authorized personnel

Main screen shows message on sign, speed settings, radar and classifier status

Access system information, power levels, active alarms and system settings from main screen

Turn connected devices on and off, including radar, classifier and beacons

Optional Traffic Data Classifier System

The Wanco Traffic Data Classifier System provides a safe, nonintrusive method for monitoring and analyzing traffic patterns. Instead of wires, loops or hoses, the data collector uses its own dedicated side-fire radar, which beats standard front-facing radar for capturing vehicle count, speed, direction and length (for classification) in both directions, with time and date. The system includes analytic graphing software for charting data with ease.

When integrated with any Wanco Radar-Speed Trailer, the two systems can operate simultaneously or independently. The system includes the touchscreen controller described above.

Classifier System Features

Tool for traffic engineers to analyze traffic patterns

Investigate and validate complaints from citizens, neighborhoods and contractors

Planners can back up needs and recommendations with real data

Radar-based design is less dangerous to install than loops and hoses

Most effective for two-lane roads

Counts both approaching and departing vehicles

Side-fire radar system captures vehicle count, speed, direction and length

Registers millions of vehicles in internal memory

Remote data download with optional modem installed

Wanco Traffic Analyzer

Wanco Traffic Analyzer app included with system

App installs on user-supplied computer

Create and manage multiple projects at once

Name projects and add details and notes when needed

Analytic graphing charts vehicle count vs. speed, volume over time, and means & percentiles for easy analysis

Filter data as desired

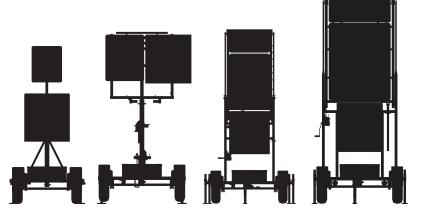

Fully interactive graphs can be customized for your requirements

Export graphs in common file formats

Large Folding-Frame Speed Trailer with optional flashing beacons
